

## Collapsible Tank LCT 1 m3

205503

The Collapsible Tank LCT 1 m<sup>3</sup> (35 ft<sup>3</sup>) fulfills the basic need to temporarily store recovered oil on site. The modular storage tank is highly flexible for storing recovered oil in remote locations and environments.

The tank fabric is constructed from durable polyester reinforced 900 g/m<sup>2</sup> (0.18 lbs/ft<sup>2</sup>) oil resistant PVC fabric with excellent resistance to hydrocarbons and UV radiation. The tank frame is manufactured from tubular steel rods giving a strong support to the tank. The tank is quickly erected for instant operational use and disassembled compactly for transportation and storage. It requires no tools for assembly and is easily cleaned.

Multiple collapsible tanks can be linked together forming a cascade system that allows excessive water to be drained off.

### Technical Specifications:

Length	1200 mm	3.9 ft
Width	1200 mm	3.9 ft
Height	800 mm	2.6 ft
Weight	13 kg	28.6 lbs
Capacity	1 m <sup>3</sup>	35 ft <sup>3</sup>

### Benefits:

- Flexible, modular and compact
- Easy and fast to assemble, no tools required
- Durable polyester reinforced oil and UV resistant PVC fabric
- Sturdy steel frame
