

02E Boom Towing and Anchoring

Anchoring Set for Light Oil Booms with 10kg/22lbs Anchor - 362686

The Anchoring Set is a boom anchoring kit for smaller sized foam float and inflatable booms comprising of one 10 kg galvanized Bruce type anchor, 5 m of 10 mm anchor chain with 2 pcs shackle M12/Y, one 40 cm diameter anchor buoy and 50 m of 16 mm tripping line.

We provides a full range of Oil Containment Boom Deployment equipment according to standard sets and customers exact requirements. All booms require additional equipment for correct handling and mooring and these items should always be considered.

The Anchor sets comprise a suitably rated galvanized steel anchor with shackle and chain / rope, all components are premium quality.

In addition, we can provide aluminum containers for easy storage and transportation of boom deployment equipment.
