

Collapsible Tank LCT TSC 11.4 m³

104950

The Collapsible Tank LCT TSC 11.4 m³ (403 ft³) fulfills the basic need to temporarily store recovered oil on site. The modular storage tank is highly flexible for storing recovered oil in remote locations and environments. The tank is quickly erected for instant operational use and disassembled compactly for transportation and storage.

The octagonal shaped tank allows for even distribution of weight. The tank fabric is constructed from durable black PVC-PU 1000 g/m² (29.5 oz/yd²) with excellent resistance to hydrocarbons and UV radiation. The tank frame is manufactured from tubular aluminum rods giving a strong support to the tank. Each vertical supporting arm has a base plate supported by a horizontal tension section.

The LCT TSC 11.4 m³ is supplied with a 3500 x 3500 mm (138 x 138 in) PVC-PU ground canvas and a tank cover. The tank requires no tools for assembly and is easily cleaned.

Package dimensions:

Aluminum frame: 1500 x 350 x 350 mm (59 x 14 x 14 in), weight: 36 kg (79 lbs)

Tank fabric: 800 x 800 x 250 mm (32 x 32 x 10 in), weight: 30 kg (66 lbs)

Technical Specifications:

Height	1500 mm	59 in
Diameter	3000 mm	118 in
Weight	66 kg	145 lbs
Capacity	11400 l	3012 gal

Benefits:

- Flexible, modular and compact
- Easy and fast to assemble, no tools required
- Durable PVC-PU fabric
- Hydrocarbons and UV resistant
- Sturdy aluminum frame
- Ground canvas, cover and storage bag included
